Product Description

High Definition and Intelligent System Customizable Smart

LED TV for Network Connection

Product Description:

1.Equipped with high-quality audio systems, such as powerful speakers, subwoofers, etc., it can output clear, full, and layered sound. For example, when playing popular music, the details of human voice and instrument sound can be clearly heard, and the low-frequency effect makes the rhythm more prominent.

 $2. Supports \ decoding \ of \ various \ audio \ formats, including \ high-fidelity \ lossless \ audio \ formats \ such \ as \ FLAC \ and \ WAV, to \ ensure \ the \ original \ and \ authentic \ music \ playback.$

Features:

Supporting Bluetooth connectivity, users can easily stream music from their smartphones or tablets to the TV for playback. It can also synchronize with music apps on smartphones, enabling shared playlists and control.
