Product Description

UHD 4K TV Elevating Your Viewing Experience with 4K Technology

Product Description:

Stronger sense of immersion: you can occupy a larger field of vision, especially in watching movies, large sports events, playing games and other scenes, so that people have the feeling of being immersive.

Picture details display: if the resolution is sufficient (such as 4K and above), you can better show the details of the image, such as the fine textures in the landscape picture.

More shocking visual impact: For example, in some action movies and special effects scenes, the large screen size can better present the grand and exciting picture.

Features:

Image processing ability: In order to optimize the image display effect, a more powerful image processor is usually needed to handle such as color enhancement, sharpening, dynamic compensation, etc., to avoid blurring, dragging and other problems when displaying dynamic pictures and complex pictures.

Audio enhancement needs: In order to match the shock of the big picture, usually the sound system also needs better configuration, such as more speakers, better audio decoding technology, etc., to achieve better surround sound, stereo sound effects, etc.

customizable:

Panel Resolution:	3840*2160
Aspect ratio:	16:9
function	TV/AV/HDMI/USB/RJ45 1G+8G
Average bright	300-3540CD/m2
