Factory price 75 inch QLED OLED 4K smart TV

Product Description:

Excellent contrast: Each pixel can self-light independently, and when black is displayed, the pixel can be turned off, achieving a true sense of pure black, and forming an extremely high contrast with bright areas.
Accurate color reproduction: bright colors, high saturation, more accurate and vivid color display.
Wide viewing Angle: Watching TV from almost all angles, the color and brightness of the picture are maintained with good consistency, and there will be no obvious distortion.
Excellent dynamic picture quality: the response time is very short, usually less than one thousandth of the LCD, and there is no dragging phenomenon when displaying a moving picture.

Features:
Thin and portable: Without the traditional backlight structure, the overall thickness can be less than 1 mm (only about 1/3 of the LCD screen), and light weight, easy to install and move.
Various forms: can be manufactured on different materials of the substrate, with flexibility, can be made into a variety of non-traditional flat forms such as curved surfaces.
Environmental protection and energy saving
Low energy consumption: Higher luminous efficiency and lower energy consumption than traditional LCD TVS.
Materials environmental protection: some manufacturing materials can be recycled plastics and resins, good plasticity

customizable:

Panel Resolution:	3840*2160
Aspect ratio:	16:9
function	TV/AV/HDMI/USB/RJ45/ISDB-T/ Bluetooth 2G+16G
Average bright	300-350CD/m2
Format	UHD TV
